you create for?**

SCHOOL OF THE ARTS SINGAPORE

The School of the Arts (SOTA) is Singapore's first national pre-tertiary specialised arts school with a six-year integrated arts and academic curriculum, leading to the International Baccalaureate (IB) Diploma or Career-related Programme, for youths aged 13-18 years old.

Supported by the Ministry of Culture, Community and Youth (MCCY) and Ministry of Education (MOE), SOTA offers a dedicated development path for those who have interest and show early talent in the arts, providing a learning environment where both the artistic and academic potential can best be realised.

With a vision to nurture creative citizens for the future, SOTA aims to identify and groom artistic and creative learners who positively impact Singapore and the world, through a vibrant learning environment that is anchored in the arts.

A school for the future, SOTA embraces a holistic educational philosophy that celebrates experimentation, expression, and discovery.

Teaching Philosophy

We value every student as a member of the SOTA community. The all-round development and well-being of students are central to our teaching philosophy. We advocate a future-oriented curriculum and provide a conducive learner-centred environment that will inspire students towards achieving academic and artistic excellence.

Our assessments are both formative and summative. They are aligned with the different points of a student's learning cycle. Essentially, we value practice that is well-grounded in theory.

Our Teachers

Our teachers are caring and nurturing educators with extensive experience in their respective disciplines. With a common belief in the value of an arts-enhanced education, the SOTA teacher actively collaborates to support students' learning in the artistic, academic, and affective domains.

Academic Calendar

SOTA's academic calendar broadly follows the Ministry of Education schools' academic calendar, with some variations to accommodate the IB programmes.

Mission

Nurturing artistic and creative learners who positively impact Singapore and the world, through a vibrant learning environment that is anchored in the arts

Vision

Creative Citizens for the Future

Values

Humility
Integrity
People-centredness
Passion

SOTA

THE SOTA EDUCATION EXPERIENCE

A Holistic Education

Through a distinctive curriculum anchored in and through the arts, SOTA students have the unique opportunity to pursue their passion for the arts alongside academic grounding in a range of disciplines. The integrative learning experiences across the arts, academics and affective domains provide opportunities for students to draw on multiple disciplines to better engage with and respond to complexity. Grounded in deep disciplinary, students will adopt dispositions that are purposeful, pluralistic, playful and provisional, as they develop to not just be artists or professionals, but also artistic and creative learners, and cultural leaders.

The six-year course culminates in the International Baccalaureate Diploma Programme (IBDP) or the International Baccalaureate Career-related Programme (IBCP).

Artistic and Creative Professional

Connecting theory with practice, SOTA's specialised arts programmes emphasise authentic creative processes that aim to develop strong artistic capabilities and dispositions, including critical thinking skills, creative awareness, and discipline among students.

The SOTA Specialised Arts Curriculum aims to enable students to:

- Establish fundamental knowledge and skills in the respective arts disciplines
- Anchor creative thinking through bold and reflective artistic practice
- Engage in inter-disciplinary connections, conversations, and collaborations
- Understand the relationship between arts and society in local, regional and global contexts
- Develop an artistic identity and drive for lifelong learning and engagement with the arts

SOTA Arts Programmes

SOTA offers specialised training in Dance, Film*, Literary Arts, Music, Theatre, and Visual Arts. Each course is designed to develop students to attain understanding, expression, and mastery in their art form.

At SOTA, students are exposed to the full range of art forms and learn to make connections across them. Besides developing a deeper understanding of their chosen art form, students are imbued with an awareness of the synergy across disciplines through learning anchored in the arts.

Students have the opportunity to be stretched beyond the classroom through workshops, talks, and learning journeys. In addition, the Arts Excellence Programme (AEP) caters to students who demonstrate outstanding artistic capacity. Aimed at extending their potential, it offers advanced learning opportunities via masterclasses by prominent experts, as well as participation in overseas programmes.

**Only at Year 5 and 6*

Empathetic H.I.P.P. Leader

SOTA seeks to develop emerging cultural leaders with Humility, Integrity, People-Centredness, and Passion.

SOTA's Affective Programmes seek to nurture emerging cultural leaders who will contribute positively and meaningfully to their community with their creativity and talents. By bridging creative and artistic excellence to meet human needs and inspire them to think, feel and encounter the world with deeper insights and greater empathy. Our students learn to hold space for diversity and dissonance in order to explore a wide range of ideas.

Programmes and activities such as Character and Citizenship Education (CCE); Education and Career Guidance (ECG) Programme; level camps; community engagement programmes; Creativity, Activity, Service (CAS) projects and leadership expeditions develop students' social-emotional skills and leadership qualities.

These programmes and activities encourage our students to contribute meaningfully to local and global communities. Students are also given the opportunities to initiate, plan, execute, and lead their own community projects to meet the needs of the community or organisation they serve.

SOTA has a dedicated team of teacher-mentors, comprising Class, Year, Arts, and Academic Mentors to meet our students' social-emotional, artistic, and academic needs while supporting their holistic development as empathetic H.I.P.P. Leaders with Passion.

CURRICULUM OVERVIEW

Foundation Years

Years 1 & 2

- Specialised Arts: Dance, Literary Arts, Music, Theatre, or Visual Arts
- English Language and Critical Thinking
- Literature in English
- Mother Tongue Languages
- Geography and History
- Coordinated Science
- Mathematics
- Integrated Arts
- Media Education
- Experiential Education
- Character and Citizenship Education

Intermediate Years

Years 3 & 4

- Specialised Arts: Dance, Literary Arts, Music, Theatre, or Visual Arts
- English Language and Critical Thinking
- Literature in English
- Mother Tongue Languages (Foundation, Standard or Higher Level*)
- Geography or History
- Biology, Chemistry, or Physics*
- Mathematics or Accelerated Mathematics®
- Community Service
- Experiential Education
- Character and Citizenship Education
- Arts Plus[#] (elective)

* Higher Level is offered only for Chinese Language. Foundation Level is offered in Year Four, and only for Chinese Language and for students who are exempted from Mother Tongue Language (MTL) or offered MTL in lieu; as an enrichment subject, it does not count towards the promotion criteria.

* Students may opt to do one or two sciences. Single-science students can choose either Biology, Chemistry or Physics. Two-science students will take Chemistry as one of their science subjects, and take either Biology or Physics as their second science subject.

[#] Needs to meet eligibility requirements.

[®] Accelerated Mathematics is offered only in Year Four for students who meet requirements.

Years 5 & 6 (IBDP)

The IBDP requires a student to offer the Diploma Core requirements, three subjects at Higher Level that include the Arts, and three subjects at Standard Level.

Core

- Theory of Knowledge
- Extended Essay
- Creativity, Activity, Service

Studies in Language and Literature

- Literature in English, Language and Literature, or Literature and Performance[#]

Language Acquisition^{** #}

- Language B: Chinese, Anticipated Chinese^{*}, Malay, Hindi, or Tamil or French[@], or Language Ab Initio: Chinese, Spanish[@], or French[@]

Years 5 & 6 (IBCP)

The IBCP requires a student to offer the IBCP Core requirements, three to four Career-related Studies modules, and at least two DP Subjects of which one must be the Arts at Higher Level, and the other in Language Acquisition at Standard Level^{**}. Students may also opt to take a third DP Subject in Economics, Geography, History or Social and Cultural Anthropology at Standard Level.

Core

- Personal and Professional Skills
- Community Engagement
- Language and Cultural Studies
- Reflective Project

Career-related Studies

- Dance
 - Ballet
 - Contemporary Dance
 - Repertoire and Performance
- Music
 - Practical Musicianship (all specialised areas)
 - Performance and Repertoire (Performance specialised area)
 - Composition Approaches (Performance specialised area)
 - Process of Performance (Composition specialised area)
 - Analysis and Interpretation (Composition specialised area)
 - Audio Production (Sonic arts specialised area)
 - Sound Design (Sonic arts specialised area)

Individuals and Societies

- Economics, Geography, History, or Social and Cultural Anthropology

Sciences

- Biology, Chemistry, or Physics

Mathematics

- Mathematics: applications and interpretation or Mathematics: analysis and approaches

The Arts^{##}

- Dance, Film, Literary Arts[#], Music, Theatre, or Visual Arts

^{*} One year course

[#] Offered at Standard Level only

[@] Online course only

^{##} Offered at Higher Level only except for Literary Arts which is offered at Standard Level only

Theatre

- Form and Creation
- Acting and Performance
- Community and Industry
- Rehearsal and Production
- Visual Arts
 - Craft Exposure/Vocational Skills
 - Professional Practice
 - Writing and Communication Skills

Language Acquisition^{** #}

- Language B: Chinese, Anticipated Chinese^{*}, Malay, Hindi, or Tamil or French[@], or Language Ab Initio: Chinese, Spanish[@], or French[@]

Individuals and Societies^{**#}

- Economics, Geography, History, or Social and Cultural Anthropology

The Arts^{##}

- Dance, Music, Theatre, or Visual Arts

^{*} Students may take an optional 3rd DP subject from Individuals and Societies

^{**} Students exempted from Mother Tongue Languages will choose the 2nd compulsory subject from Language Acquisition or Individuals and Societies

^{*} One year course

[#] Offered at Standard Level only

^{##} Offered at Higher Level only

[@] Online course only

THE CAMPUS

Located at the gateway to the arts and heritage district of Singapore, our architectural award-winning campus houses a variety of arts and sporting facilities, as well as performance spaces for the school's teaching and learning needs.

EXPLORE

Diverse

POSSIBILITIES

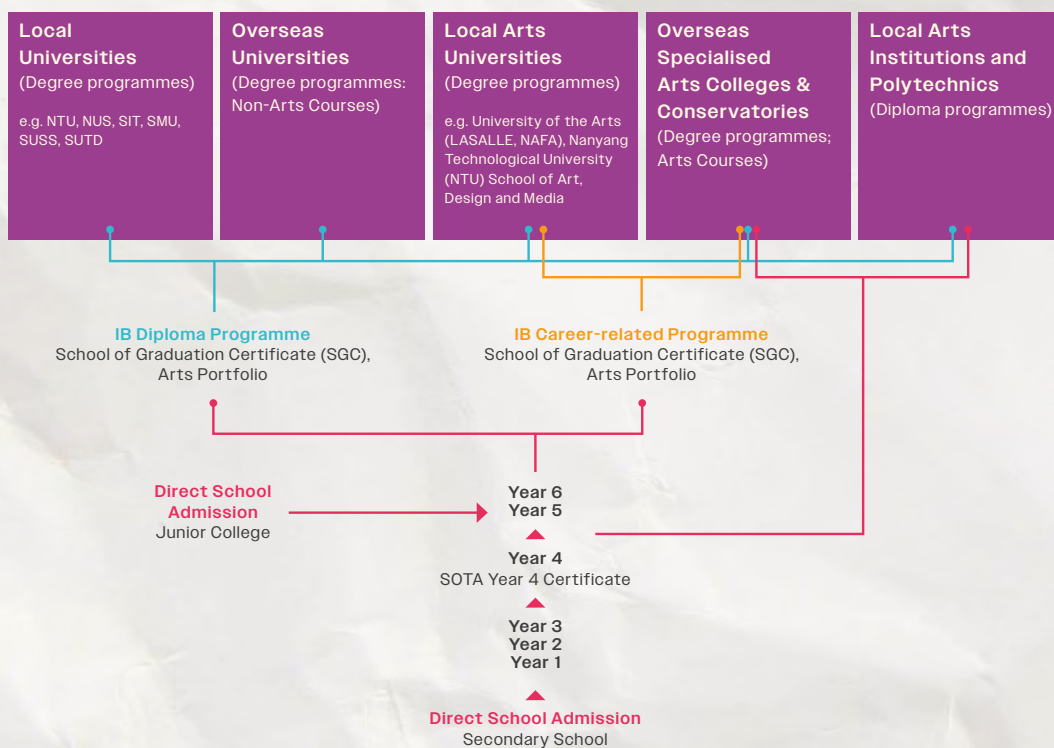

EDUCATION PATHWAYS

IB programmes are recognised by universities, arts institutions, and conservatories locally and globally. SOTA graduates can look forward to the arts as a career or leverage their arts-enriched educational experience to embark on diverse career pathways.

EDUCATION AND CAREER GUIDANCE

SOTA's team of Education and Career Guidance (ECG) counsellors and teachers provides education counselling and support for scholarship applications and applications to institutes of higher learning (local and foreign). Students are also equipped with important skills such as interview skills, resume writing, and education planning.

The ECG team also develops partnerships and networks with other institutions to provide students with educational opportunities. Through individualised guidance and support, the school aims to enable every student to pursue education beyond SOTA so they can further develop their talent and potential.

SUCCEEDING BEYOND SOTA

Our graduates have gone on to further their education in illustrious schools both in Singapore and abroad. SOTA graduates have also been recognised for their achievements in a spectrum of fields, from the academic and artistic to societal leadership.

Regardless of their varied pursuits, our graduates continue to actively engage with and support the arts beyond their time at SOTA, demonstrating an appreciation and commitment to the arts.

To view the full list of tertiary and post-secondary institutions, please visit our website: www.sota.edu.sg/learning/beyond-sota/

ALUMNI TESTIMONIALS

Class of 2025

Violette Evangelynn Lovell Lie

Visual Arts

Intending to pursue Industrial Design

"The strongest catalyst for my growth in SOTA is the highly supportive school community, where my teachers and peers actively created an uplifting environment through constant encouragement, allowing me to comfortably step out of my comfort zone to try new things and seek unfamiliar experiences."

Class of 2024

Tan Ee Ning Maegan

Literary Arts

Politics and Anthropology, University of Cambridge, on the Singapore Armed Forces Scholarship

"I enjoyed the opportunity to set the standard and chart the path for our juniors to follow as a pioneer batch of Literary Arts graduates. There were no model essays or set paths to follow which meant that we were stepping into uncharted territory. We could ask questions that no one had answers to, push boundaries, and think of creative ways to tackle our assignments."

Class of 2023

Bernadette Koh

Theatre

Acting, Leeds Conservatoire

"The school's curriculum helped me pursue my art form more seriously and provided me with many theatrical avenues that I could begin to experiment with. The well-rounded manner of teaching has not only allowed me to retain my interest in the art form for over six years, but has also granted me a multitude of opportunities to pursue my artistic interests."

Class of 2022

Tee Zhu Yi

Visual Arts

Art, Design and Media, National Technological University Singapore

"My love and interest for the Visual Arts really grew after I entered SOTA. I was able to join a community of many peers with their own passions and interests. Regardless of art form, it was encouraging seeing them value the potential art has and their passion and appreciation of its place within contemporary society. Through the school's curriculum and my own exploration of art, I developed a greater passion for art making, encouraging me to pursue a career in the arts."

Class of 2021

Nur Deanna Bte Mohammad Ismael

Dance

Psychology, National University of Singapore

"I chose to pursue my passion in SOTA as it provided me with an environment where both my artistic and academic potential can be best realised. SOTA also nurtured my self-confidence by providing me with several leadership opportunities. My experiences encouraged me to see things from multiple perspectives, and helped me learn the importance of effective communication and mutual respect."

Class of 2020

Rachel Sim Yi Shien

Music

Business Administration and Public Health, National University of Singapore

"SOTA offers a holistic education that pushes students to critically engage with real world issues, utilise creative thinking in their academic assignments, and involve themselves in various leadership & community service opportunities. I think this has helped me to step out of my comfort zone and develop all-around. I am more confident in pursuing my future endeavours and better prepared to overcome challenges I will face."

Class of 2019

Leong Su Yeon

Theatre

Computer Science, Cornell University, on the Singapore Armed Forces Scholarship

"The biggest change that SOTA has instilled in me is that I am now able to better connect with others. The most impactful opportunity that I had would be when I spent close to two weeks in Cambodia doing service work. It opened my eyes to the world, and I realised that despite our differences, we are much more alike than we think."

Class of 2018

Ashley Jane Leow

Film

Film, Paris College of Art

"I think the best thing about the SOTA education is that it is very holistic. I had so many projects that allowed for the freedom of cross-references between multiple subjects, and thus the possibility of linking and applying what I have learnt across various studies to create a well-rounded outcome."

A man and a woman are shown in a workshop setting, focused on their work. The man, wearing glasses and a dark shirt, is pointing at something on a workbench. The woman, smiling, is looking down at her work. The entire scene is overlaid with a semi-transparent red color. There are several abstract, torn-paper-like shapes in various colors: a green one in the top left, a blue one on the right side, and a yellow one at the bottom. The text 'EMBARK ON YOUR' is written in a bold, black, sans-serif font across the middle of the image.

**EMBARK
ON YOUR**

Creative

JOURNEY

Dance

Students specialising in dance will embrace a mind-body approach in learning about the body's capabilities for movement and expression. They will develop confidence as performers and creators, armed with knowledge about dance across cultures and history.

Students will be encouraged to be inquisitive and reflective as they develop analytical and critical thinking skills through theoretical exposure. They will be disciplined, resilient learners who are passionate about dance.

Key Programmes

- Training in ballet and contemporary dance techniques, movement and improvisation, composition and analysis, and dance contextual studies
- Workshops and masterclasses in various dance genres by local and international guest artists
- Showcases, studio presentations, and choreographic platforms
- Excursions to dance performances

Learning Outcomes

- Develop proficient knowledge and awareness of the body through exposure to and practice of various dance techniques
- Nurture the spirit of experimentation for creative expression and communicating ideas through choreography
- Understand the importance of protecting, maintaining, and preserving the dancer's body
- Understand the histories, issues, and theoretical frameworks that support the manifestation of dance
- Gain knowledge and exposure to a wide range of dance genres, which include ballet, contemporary dance, and Southeast Asian dance forms

Film

Students specialising in film at Year 5 and 6 will explore film as a cinematic art form and track its development through history, theory, and production techniques. They will learn to balance theory and practice, and deconstruct film for meanings through its language and grammar. They will understand film as a cultural document for the exploration of issues ranging from formal aesthetics to historical representation, from regional film industries to transnational audience reception. They will also gain an understanding of the influence of the time and space in which a film is made.

As film is teeming with artistic possibilities, students will acquire the technical and collaborative skills to create and showcase original work.

Key Programmes

- Masterclasses, talks, and workshops by film professionals
- Study trips and competition opportunities
- Screening of students' original short films

Learning Outcomes

- Develop an understanding of film as an art form
- Acquire the practical and technical skills of film production
- Be able to formulate stories and ideas in cinematic form
- Be able to critically evaluate film
- Be exposed to filmmaking traditions from more than one culture or time period

In Literary Arts, students learn to critically appreciate a range of literary works from the point of view of a writer, while ideating and creating original works. They will explore a range of literary forms such as prose, poetry, and drama, as well as a variety of writing forms, like short stories, playscripts, creative non-fiction and different types of poetry.

Students in the programme will learn the conventions and techniques of each form to understand how to apply these in their own writing. They will also learn to discuss and reflect on the choices they make in writing and editing.

By the end of the programme, Literary Arts students will be empowered to tell their original stories in different mediums and understand that creative writing is an art form that constantly evolves.

Key Programmes

- Individual and small group mentorship by teachers
- Enrichment programmes conducted by exemplary local writers
- Showcases and online publication opportunities
- Participation in local writing workshops and writers' festivals
- Field trips to explore the rich variety of cultures and traditions in Singapore

Learning Outcomes

Students should demonstrate:

- Deep understanding of the creative writing process
- Understanding and appreciation of a range of literary forms
- Application of knowledge of literary forms and a variety of techniques
- Versatility, technique and skill in creating original works in the different forms
- Strong communication and collaborative skills

Literary Arts

Music

From vocal, instrumental and music technology in performance studies, to music theory/analysis and composition, students specialising in music will experience the full spectrum of the artform. They will discover music from around the world and examine the development of music across traditions and history. They will also develop craft, perspectives and dispositions of a musician, which will enrich their journey in any field beyond SOTA.

Creating and Performing Tracks

The Music Faculty offers the Creating and Performing Tracks to our music students. Music is an art form that requires both the conceptualisation and development of ideas, as well as the ability to express those ideas through an instrument/voice.

Creating Track

The Creating Track programme aims to hone and develop students' creative abilities and skills, as well as further their potential as music arrangers, sound designers, improvisers, or composition specialists.

Performing Track

The Performing Track programme aims to develop students' potential in the areas of musical performance, musical interpretation, as well as musicianship.

Key Programmes

- Performance opportunities
- Learning journeys to concerts of diverse musical offerings
- Masterclasses by renowned local and international artists
- Creating-related programmes: music technology workshops, composition workshops, and collaborations (e.g. with National Gallery Singapore and National Library Board)
- World Music workshops by specialists from different musical cultures

Learning Outcomes

- Develop critical thinking and listening skills
- Develop musicianship skills
- Develop creative approaches to music through composition and collaborative music-making
- Understand and apply elements and concepts of music to every aspect of the musical pursuit
- Demonstrate musicianship in solo and chamber music, as well as in improvisational situations

Students specialising in Theatre will embark on a learning journey that includes aspects of performing, directing, playwriting, critique, stage management, and production design.

Students will gain a creative appreciation and respect for a wide range of theatre traditions, dramatic styles, forms, processes, practices, conventions, and values through practical experience and develop their creative voice and vocabulary. They will discover the value of theatre in a range of social and cultural contexts and develop skills and values for theatremaking and lifelong learning.

Key Programmes

- Masterclasses, talks, and workshops by local and international artists, and arts educators
- Regional and international exchanges with partner institutions
- Excursions to theatre performances

Learning Outcomes

- Demonstrate an understanding of the practical and theoretical aspects of theatre, performance, and design
- Demonstrate understanding of the nuances of the various theatre traditions, forms, and conventions
- Be able to collaboratively devise theatre with a keen awareness of society, community, and industry
- Be able to conduct independent research and reflection with a critical view and global awareness
- Approach viewing and experiencing theatre and performance with a critical and reflective perspective

Theatre

Visual Arts

Students specialising in Visual Arts will acquire knowledge, understanding, and technical abilities in a range of mediums, forms, and expressions. Besides developing a strong foundation in 2D-artmaking, students will also be adept at working with 3D art and digital mediums. Through experimentation and imagination, they will learn to harness their artistic impulses for creative outcomes.

Students will gain knowledge and understanding in the formal, theoretical, and historical aspects of visual arts, and expand their analytical and critical abilities in art practice, art theory, and art history. Students will also learn to investigate and document their reflections, interests, ideas, and art-making processes.

Key Programmes

- Masterclasses, talks, and workshops by local and international artists
- Learning journeys to local and overseas exhibitions, festivals, and art institutions
- Regional and international exchanges with partner institutions
- Collaborations with industry partners and arts organisations

Learning Outcomes

- Demonstrate understanding and application of the elements and principles of art and design
- Demonstrate skills, techniques, and processes required to communicate concepts and ideas through fine art, design, and digital media
- Be able to articulate meaning and representation in fine art, design concepts, and media art studies
- Be able to create artwork influenced by personal and cultural contexts
- Be able to articulate personal creative ideas and visual vocabulary through a rigorous process of exploration and documentation in various mediums and disciplines

English Language and Critical Thinking, & Theory of Knowledge

English Language and Critical Thinking (Years 1–4) and Theory of Knowledge (Years 5–6) set the foundation for students to become:

- Inquiring learners and critical thinkers who can analyse and evaluate multiple perspectives and text types
- Individuals who show empathy and respect;
- Effective communicators in the use of standard English Language;
- Artist learners who apply what is learnt in the classroom to their art forms and vice versa

Through English Language and Critical Thinking (ELCT) lessons in Years 1–4, students will learn to analyse a variety of real-world issues, discuss multiple perspectives on these issues, be empathetic and respectful about others' views and opinions, and learn to communicate their views effectively through various platforms.

In ELCT, through a deliberate and progressive scaffolding of activities and lessons, students learn the basics of research skills. In Year 4, students are prepared to embark on independent research to help them gain an understanding of the demanding research skills that they would need in their IB years.

From Years 5–6 in Theory of Knowledge, one of the three core components in the IB Diploma Programme (IBDP), students will examine the nature of knowledge; how knowledge is constructed; and reflect on how we know what we know.

In Personal and Professional Skills, one of the four core components in the IB Career-related Programme (IBCP), students are taught life skills to help further develop as critical thinkers and communicators with deep appreciation for cultural diversity.

Learning Outcomes

- Communicate effectively through different media and text types
- Nurture an interest in global issues and develop well-reasoned opinions about them
- Be respectful and empathetic to different viewpoints
- Examine global issues in the contexts of groups, society, nation, and global citizenry
- Explore 5 different Areas of Knowledge and reflect on the interaction between knowledge and the knower, while appreciating the value of both personal and shared knowledge.
- Develop life skills grounded on an understanding of different socio-cultural contexts
- Gather relevant information and data from a wide variety of sources for in-depth research into topics of interest
- Develop the research and essay-writing skills needed to facilitate learning in different disciplines
- Foster a spirit of intellectual curiosity and a desire for academic discovery
- Hone critical, creative thinking, and reflective skills

Key Programmes

- Interdisciplinary lessons
- Arts-integrated learning through creative projects
- Talent development programmes, including philosophical seminars, debate competitions, and educational trips
- Workshops
- One-to-one coaching

Humanities & Social Sciences

Through the Humanities and Social Sciences, students cultivate a healthy curiosity about the study of humanity, cultures, and societies as they develop research, analytical, and communication skills.

A key feature of the Humanities and Social Sciences education in SOTA is the emphasis on learner-centred, inquiry-based pedagogies as well as experiential learning to provide a platform for rich and engaged learning. Through these experiences, students are encouraged to recognise their roles as local and global citizens who are active contributors to society and the environment.

Key Programmes

- Talent development programmes, which include participation in competitions, conferences, and research programmes
- Enrichment programmes, learning journeys, field trips, seminars, Model United Nations conferences and more
- Humanities and Social Sciences Festival

Learning Outcomes

- Equip students with a critical understanding and appreciation of disciplines within the Humanities and Social Sciences: Economics, Geography, History, and Social and Cultural Anthropology
- Nurture awareness of the development of humanity over time
- Develop analytical, decision-making, and investigative skills for a critical understanding of the world, both past and present
- Live out values such as empathy and respect for diverse perspectives and cultures

Literature in English

Literature in English seeks to create well-rounded learners who are equipped for the future.

Students will explore local and global writing. This will ground them in issues concerning Singapore society while exposing them to universal concerns. Through developing a sensitivity to the nuances of language, students identify and explore different ways in which texts convey complex ideas. They learn about empathy, compassion, and interpersonal relationships through individual and collaborative work. At the same time, students also make connections within and between texts and contexts, while expressing their thoughts in speech and writing.

This prepares students with skills such as linguistic precision and effective, persuasive communication, which are increasingly important in our complex world.

In the IB Diploma Programme, students choose to offer Literature or Language and Literature at either the Higher or Standard Levels, or Literature and Performance at the Standard Level.

Key Programmes

- Literature Afternoon and Literature Fest, where lower and upper year students have opportunities to showcase their creativity and passion for the literary works they have studied
- World Book Day celebrations, where the school celebrates the joy of reading through assembly sharing, mini competitions and library book displays
- A range of enrichment programmes, where students extend their knowledge beyond the classroom, for example, attending talks, workshops, performances
- Participation at external Literature festivals, seminars and competitions e.g. National Schools Literature Festival, MOE Gifted Education Branch's Literature Seminar etc.

Literature allows students to explore the nature of literature, and the aesthetic function of literary language while in Language and Literature, students study a wide range of literary and non-literary texts in a variety of media. Literature and Performance allows students to combine literary analysis with performance to further develop their understanding of dramatic literature.

Learning Outcomes

- Develop skills of critical analysis and evaluation to facilitate a deeper engagement with language and communication
- Acquire skills of close reading, comprehension, and interpretation that empower students to enjoy and appreciate reading
- Foster ethics, values, sensitivities and dispositions for a cosmopolitan society in a globalised age
- Communicate clearly and effectively in both speech and writing
- Acquire a creative imagination and a lifelong passion for knowledge and learning

The SOTA Mathematics curriculum encompasses a wide variety of topics to empower students with the essential mathematical skills to make sense of the world they live in. These include macro-concepts such as pattern, space, change and systems. Students are presented with performance tasks that encourage them to delve into real-world applications of Mathematics. Additionally, an interdisciplinary approach incorporating arts is integrated into the curriculum, enabling students to appreciate the artistic and cultural dimensions of Mathematics.

Key Programmes

- Participation in a spectrum of international and local Mathematics competitions including the Singapore International Mathematical Modelling Challenge, the Singapore Mathematics Olympiad, and the Australian Mathematics Competition
- Collaboration with disciplines like Visual Arts and Music to infuse mathematical concepts with creative expression through various tasks.
- Participation in programmes that bridge mathematical concepts with real-world applications, fostering a deeper understanding among students.

Mathematics

Learning Outcomes

- Deepen understanding and appreciation of mathematics
- Extend the breadth of knowledge and application of mathematics across various disciplines
- Establish connections between mathematical concepts and their real-world applications
- Nurture the development of mathematical thinking in student

Mother Tongue Languages

Through the learning of mother tongue languages in SOTA, students will gain knowledge and understanding of languages and culture, and skills in creative writing, inquiry-based learning, and problem-solving. They will discover and connect with their heritage as they go beyond the language to explore various topics and literary works in their respective mother tongues, be it Chinese, Malay, Tamil, or Hindi.

Learning Outcomes

The Standard Level Programme aims to enable learners to:

- Develop language skills of the target language
- Develop the ability to use the target language appropriately and effectively for the purpose of practical communication
- Gain awareness and appreciation of the target language’s cultural, historical, and societal issues
- Assume a positive attitude towards language learning and speakers of other languages and cultures

The Higher Level Programme aims to enable learners to:

- Develop an understanding of the characteristics of different literary devices
- Develop a personal voice to different genres of text, while understanding intellectual, emotional, and socio-cultural influences
- Gain insights to culture via literary texts
- Adopt a lifelong learning attitude in pursuing excellence in their language and analytical skills

Key Programmes

- Talent development opportunities which includes workshops, participation in competitions, and educational trips
- Cultural activities for example, tea art appreciation, batik painting workshops, and shadow puppet-making

Sciences

The SOTA Science curriculum seeks to nurture the inquirer and creative thinker in science. Students are introduced to scientific inquiry and the basics of biology, chemistry, and physics, before they venture into more complex topics during their IB Diploma Programme. They are encouraged to make meaningful connections between science and real-world phenomena, as well as apply their learning in the arts. They learn about the impact and implications of using science and technology in society, as well as the possibilities and limitations associated with science and the work of scientists.

Key Programmes

- Integrative Learning Experience: Five days' interdisciplinary programme that integrates the learning from both Music and Science faculties (Year 1-5)
- Integrative Projects: The Scientific Endeavour (Year 1), Science at Home (Year 2), Arts in Science (Year 3) and Project Red Planet (Year 4)
- Enrichment: Biology, Chemistry and Physics Olympiads and Leagues (Year 4, 5 & 6), Science Research Programmes and Workshops (Year 5 & 6)

Learning Outcomes

- Appreciate scientific study and creativity within a global context
- Acquire, apply, and use a body of knowledge, methods, and techniques that characterise science and technology
- Develop an understanding of the relationships between scientific disciplines and their influence on other areas of knowledge such as the arts

SOTA's Media Education programme for all Year 1 and 2 students equips them with building blocks in digital, media, and visual literacy skills. Students will learn to access, share, critically evaluate, create, and participate in the evolving media landscape. They will also learn basic media production skills while developing a socially responsible attitude towards consuming media and crafting messages with credibility. A result of that is seen through the creation of Public Service Announcement videos. Scan the QR code to watch.

Key Programmes

- Hands-on workshops in all aspects of basic digital media production
- Opportunities to collaborate and create digital content
- Short film critique and appreciation
- Showcase of original works

Learning Outcomes

- Develop an understanding of the forms and functions of media
- Develop an understanding of the importance of responsible use of digital and social media
- Develop digital competencies to create and communicate ideas through various forms of media
- Be able to critique, analyse, and evaluate multi-media content
- Be able to collaborate effectively on online platforms

Media Education

Integrated Arts is a two-year programme unique to SOTA, where students are guided to explore the connections between the different arts disciplines. Students develop habits of observation, exploration, and reflection, as well as an awareness of the fundamental concepts and elements of each art discipline: dance, literary arts, music, theatre, and visual arts.

Key Programmes

- Experiential learning environment guided by the Arts faculties
- Collaborative projects exploring interdisciplinary approaches

Learning Outcomes

- Be able to acquire knowledge, skills, and understanding of the fundamental concepts and elements of the different arts disciplines
- Be able to draw connections between their own practice and other art disciplines
- Be able to explore and exchange ideas, gaining insight into different perspectives in collaborative art-making.

Integrated Arts

Student Development

Through various student development programmes, SOTA nurtures leaders who will contribute positively and meaningfully to their community with their creativity and talents.

These programmes develop students' social-emotional skills and leadership qualities, and encourage them to contribute meaningfully to local and global communities.

Character and Citizenship Education

SOTA adopts a whole-school and connected curriculum approach to the teaching of character and citizenship. We believe that students acquire such knowledge and skills through both formal and informal curricula of the academic, arts, and affective. In turn, we hope that students embody values and attributes of the IB Learner Profile to become a "H.I.P. Leader with Passion" after their six years of education in SOTA.

Learning Outcomes

SOTA's Character and Citizenship Education (CCE) has the following learning outcomes that are intentionally integrated into the design of learning activities in the classroom and Student Development Experiences (SDEs)*:

- Develop self-awareness and self-management skills to achieve personal effectiveness and well-being, demonstrating passion in our commitments
- Demonstrate people-centeredness by developing social awareness and managing relationships for personal and social well-being
- Act with integrity and humility, and make responsible decisions and act on them
- Be a H.I.P. Leader with Passion by contributing actively to our nation and reflecting on community and global issues

**Adapted from MOE CCE Implementation Handbook - CCE Learning Outcomes*

The above outcomes are explicitly taught in CCE class-based lessons, and integrated in the appropriate academic and arts curriculum, as well as various school based programmes. Students are encouraged to embody the various habits, values, attitudes, competencies and skills that will help them reach their full potential as members of the community and greater society. Through CCE, we hope to empower students to become well-rounded citizens with a heart for lifelong learning.

Key Programmes

- CCE Lessons (including Sexuality Education)
- Individual or group mentoring by Class Mentors
- School-wide and level talks, workshops and learning journeys
- Leadership opportunities (i.e. CCE Ambassador programme)

Leadership Academy

The Leadership Academy (LeAd) is SOTA's student leadership body. Students who join LeAd take part in a leadership development programme that inculcates values, imparts leadership knowledge and provides platforms for students to practise their leadership skills. Guided by their vision - 'Empowering Growth in a Vibrant Community', LeAd students take an active role to build a culture of creativity and mutual support within the student body.

Key Programmes

- Leadership development retreats
- Culture building through celebration of key school and National Education (NE) events
- Mentoring of junior leaders by seniors

Learning Outcomes

At the end of their term of service, LeAd students should:

- Articulate and display the values of Humility, Integrity, People-centredness and Passion
- Possess the traits of the IB Learner Profile as described by IBO and be able to articulate and display these dispositions
- Possess the ability to lead or collaborate with others on projects to positively impact the school and the community
- Have been part of a group/committee that organised a major school event/function

Community Service

The SOTA Community Service programme aims to prepare students for lifelong learning and community engagements. Through experiential learning, students learn to appreciate and respect social-cultural diversity, and demonstrate respect and care for the community. Students demonstrate their creativity and zest for challenge and adventure by applying their artistic talents in community projects which advocate for the larger good.

Students are introduced to local service and issues-based projects in Year 3, leading towards more rigorous community service and young cultural leadership projects in Year 4. These programmes pave the way for the IB Diploma Programme Creativity, Activity, Service (CAS) or IB Career Programme Community Engagement (CE) Core at their IB Years 5 and 6.

Key Programmes

- Year 3 & 4: A 5-month extensive project research and engagements with local and overseas community partners
- Years 5 and 6: An 18-month IBDP CAS or IB CP CE programme with a wide variety of community engagements and activities

Learning Outcomes

- Understand the challenges faced by different communities, build relationships, serve and interact with members of the community
- Apply artistic skills to serve the community, while exploring critical social issues, cross-cultural nuances, and his/her identity as a young artist
- Enhance personal and interpersonal dispositions through experiential learning
- Initiate community projects which are sustainable and add value to the larger community

Experiential Education

In SOTA's Experiential Education, students develop knowledge, skills and values through purposefully crafted physical and outdoor experiences. A key feature of Experiential Education is the focus on direct experiences to foster students' growth in their physical, kinesthetic and affective domains. Through these experiences, we hope to nurture students who will become independent and self-directed learners with passion for physical pursuits.

Learning Outcomes

- Exhibit broad-based physical and movement competencies to engage and enjoy in a wide variety of sports and games
- Possess the skills and knowledge to develop and maintain lifelong healthy and active living
- Develop outdoor skills and a spirit of adventure so as to foster an interest in outdoor recreation activities
- Embody essential life skills such as teamwork, resilience, and leadership through the engagement in sports and outdoor adventure activities

Key Programmes

- Sports and Games Education
 - Territorial Invasion Games (Floorball, Futsal, Netball, Tag Rugby, Ultimate Frisbee)
 - Net Barrier Games (Badminton, Volleyball)
 - Striking and Fielding (Softball)
 - Target/Wall Games (Tchoukball)
 - Individual Challenge Modules (Abseiling, Bouldering and Sports Climbing)
- Physical Health and Fitness Education
 - Physical Health and Fitness Education Modules (Introduction to Health and Fitness, Health and Skills Related Fitness, Principles of Training etc)
 - Fitness Conditioning Modules (Weights and Resistance Training, Suspension Training, Body Strength & Alignment, Myofascial release)
- Outdoor Adventure Education & Life Skills
 - Basic First Aid with CPR/AED
 - Orienteering
 - Outdoor Cooking
 - Safe Cycling
 - Environmental Literacy
 - Level Camps & OBS
 - Overseas Outdoor Adventure Expeditions

Admissions, Scholarships, and Bursaries

Admission Criteria and Talent Academy

All students at SOTA are admitted through the Ministry of Education's Direct School Admission – Secondary (DSA-Secondary) Exercise. Selection is conducted via SOTA's annual Talent Academy (TA), which takes place in June.

We are looking for students who are passionate and talented in the arts and demonstrate the ability or potential to complete the International Baccalaureate (IB) curriculum. Students who are interested to join SOTA may apply during the application period from April to May. Please refer to the [TA website](#) for information on the application timeline.

Shortlisted applicants are required to attend the Talent Academy where they must complete their individual auditions/portfolio presentations, group activities, panel interviews, and online questionnaires. Applicants not studying in a local mainstream school are required to sit for the relevant entrance assessments.

To find out more about admissions, scholarships, or bursaries offered by SOTA, please visit our website:

Admissions:

www.sota.edu.sg/talent-academy/

Scholarships and Bursaries:

www.sota.edu.sg/financial-assistance-and-scholarships/

Bursaries

Tiered school and miscellaneous fee subsidies ranging from 33% to 100%, and supplementary financial assistance benefits funded by The Ngee Ann Kongsi and SOTA Student Assistance Fund (SAF) are provided to SOTA students who meet the criteria. Parents can refer to the [school website](#) for more details.

Scholarships

Several scholarships are offered annually to SOTA students who demonstrate outstanding achievements across artistic, academic, and affective domains. Students who meet the scholarship criteria will be shortlisted for the scholarship.

Other Financial Support

At SOTA, we believe that no child who has potential and shows passion in the arts should be deprived of an education anchored in the arts due to financial challenges. Visit [our website](#) for the various financial assistance available for our students who face financial hardship so that they can focus on their studies.
